

What the bleep

SHOULD I DO

EVERY DAY?

**5 DAILY STEPS TO
SHOW UP, STAND OUT & HAVE CLIENTS
BEATING DOWN YOUR DOOR**

1

Write out what you want

Get crystal clear on what you want and WHY. Journal as if you already have it.

2

Believe it is possible

Have complete faith. Build these muscles through reading wealth consciousness books. Work to eliminate limiting beliefs.

3

Share and sell

Once you're clear on your message, share it every day. Let people know you can help them. Give value. Then sell to them.

4

Grow your tribe

Provide great value and people will happily hand over their email address and follow you. Tell NEW people where they can sign up.

5

Create content

Show you know your stuff. Create content for your followers and/or clients. You'll then have something to share and sell tomorrow.

Hi I'm Emma Ward

I hope you found this audio and checklist helpful.

I know what it's like to start a business doing something you're passionate about and then feel completely overwhelmed and confused.

I'll be honest, when I started my business in 2008, I was clueless. It wasn't until I invested in my dreams and hired a business coach that I was able to start automating my business and make traction to bring in consistent clients as an Image Consultant.

I now work as a Business Coach helping incredible clients around the world helping them to show up, stand out and have clients beating down their door. If you lack clarity in any of the steps I shared above, get in touch, [here](#).
